Professional Summary

Data Scientist with 5+ years of experience in applying statistical modeling, machine learning, and data visualization to solve real-world business problems. Proficient in Python, SQL, and data tools like Pandas, Scikit-learn, and Power BI. Experienced in building predictive models and delivering actionable insights.

Technical Skills

- Programming Languages: Python, R, SQL
- Machine Learning: Scikit-learn, XGBoost, TensorFlow
- Data Visualization: Matplotlib, Seaborn, Power BI, Tableau
- Tools & Platforms: Jupyter, Git, AWS, Docker
- Databases: MySQL, PostgreSQL, MongoDB

Professional Experience

Senior Data Scientist, ABC Corp (2021 - Present)

- Led development of customer churn prediction model, improving retention by 18%
- Automated reporting processes using Python and Power BI, reducing manual effort by 60%
- Collaborated with cross-functional teams to deploy ML models into production

Data Analyst, XYZ Ltd (2018 - 2021)

- Built dashboards for sales and marketing KPIs using Tableau and SQL
- Conducted A/B testing and statistical analysis to support product decisions
- Optimized data pipelines and cleaned large datasets for analytics use

Education

M.Sc. in Data Science, University of Delhi, 2018

B.Tech in Computer Science, Pune University, 2016
